

Great Cranberry Island 50K

Dr. Brad, A photo of me and my dad at the start of the Great Cranberry Island 50K Ultramarathon. I really appreciate your help. You got me into treatment right away and gave me great advice on how to address the immediate pain issues and (just as important to me) got me ready to run in this event. I had this on my schedule for over a year and would have been really disappointed to have been unable to put forth a good effort. The run was in Maine. That makes my 29th state where I have run a Marathon or Ultramarathon. 21 more to go to get the set! Thanks again.

Sam Angelo
